“The journey through excellence is never ending”

Prakash Bhagwati

Chairman - Inspiron Engineering Pvt. Ltd

Shri Prakash Bhagwati joined his family business Associated Textile Engineering (A.T.E) in the year 1973 and was instrumental in spearheading local efforts and adoption of technology to India. As a part of the mission to bring the best technology to India, the group has a number of joint efforts with foreign companies resulting to key technical collaborations and joint ventures to manufacturer some of the finest equipment and components in India. The A.T.E Group, consists of 8 companies, with diverse activity base ranging from plant and machinery for textile spinning, knitting, weaving, non-woven, processing and printing to industrial pumps, web-handling, graphic equipment and consumables, control panels for industrial automation and engineering components and a turnover of more than US \$ 50 million.

In an exclusive interview with the TEXTILE REVIEW Shri Prakash Bhagwati, Chairman, Inspiron Engineering Private Limited says that "The journey through excellence is never ending. Complacency may creep in due to a 'satisfied feeling'. Though the direction may be appropriate we have a long journey to embark upon from being a 'great' company".
