TO WHOMSOEVER IT MAY CONCERN

Sutlej Textiles and Industries Limited (STIL) is a leading Indian Textile company and a flagship Textile business of the **K. K. Birla Group**, with a diversified presence in Yarns, Fabrics, Home textiles & Value added product.

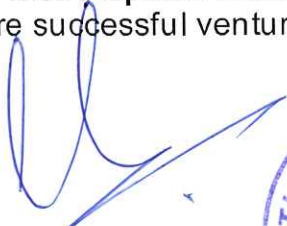

We, **Sutlej Textiles and Industries Limited, Damanganga unit**, are pleased to acknowledge our experience with the **Motex 15000 'Uniflo' Stenter Machine** with Eight chambers, supplied by M/s **InspirOn Engineering Private Limited, Ahmedabad** in the year 2026.

The machine has been installed for processing a wide range of fabrics manufactured from different substrates, including Cotton, Polyester, Viscose, Lycra, and their blends, catering to applications such as **Furnishing, Upholstery, Suiting, and other value-added textile products**.

The **Motex Stenter** is utilized for various critical fabric-processing operations, including Drying, Finishing, Heat-setting, and Curing. The machine provides effective control over important fabric parameters such as fabric width, GSM, shrinkage, stretch, dimensional stability, and overall appearance, resulting in consistent and reliable processing performance.

We are satisfied with the Machine's Performance, Robust metallurgy, Mechanical & Electrical designs, Utility consumption & Workmanship. We would also like to appreciate the Technical competence, Installation support, Commissioning assistance, Prompt response, and Professional approach of the **InspirOn** team.

We wish **InspirOn** continued success in their future projects and look forward to many more successful ventures and long-term business associations together.

Mr. Chandrashekhar Thete
(VP- Operations)
