## APPRECIATION LETTER

We have installed **Three Motex 15000 'Uniflo' Stenter Machines** each of Eight chambers from M/S **InspirOn Engineering Pvt. Ltd. Ahmedabad** in year 2024-25.

We are doing process of Heat-setting, Drying and Finishing of Polyester, Viscose, Modal & Lycra blended premium suiting fabric on Motex Stenter. Special finish like Stain free, Insect repellent, Uncrushable, UV resistant, Teflon, Anti-bacterial & Anti-microbial finish consistently run at better speed on Motex Stenter.

The Metallurgy, Design, Technology, workmanship and user-friendly interface are a testament to the superior engineering and craftsmanship that InspirOn is known for. It is comparable in performance to European Stenter machines. We are very much gratified with InspirOn team for their technical expertise, responses and professionalism.

We truly value the relationship we have built with you and look forward to exploring more opportunities to work together in future projects.
